## Callistemon 'Baroondah Station'

Common Name: *Baroondah Station Bottlebrush*

### Landscape value:

A small to medium sized evergreen shrub covered in fine grey-green foliage on pendulous branches and with a pale pink - yellow flower in the summer. Suited to hedging or screening. Best prune to maintain shape and increase flowering.

**Typical size:** 1.5 – 2m

**Growth rate:** Moderate

**Habit:** Rounded and weeping

**Foliage:** Soft grey-green leaves

**Flowers:** Pink and yellow brushes, with tips white in colour during summer and autumn

**Fruit:** -

**Position:** Full sun

**Season of Interest:** Summer

**Soil Type:** Tolerable of most soils, preferably well drained.

**Tolerances/cultivation:** A hardy and adaptable plant. Tolerable of droughts. Frost tender below -4 degrees.
